 Mr. J. KRAMER seconded.  
 Carried unanimously.  
 The CHAIRMAN—Gentlemen, the dividend  
 warrants will be ready to-morrow at 10 o'clock.  
 at all the business and I thank you for  
 attendance.  
 Mr. TALLITT—Mr. Chairman, I should like

continued all the time to support the Company, but the directors agree with you that we do not get support from the Insurance Companies here although the shareholders in these Insurance Companies are shareholders in our Company. There have been continually inquiries from the directors as to the goods on board these vessels, and they want to know the names of the consignees to go on; in fact, I am sure that in future we will be sure that we will save money, when we are sending our steamers out, that we shall be as it were on a par with our opponents in quality of our vessels, and this will be a great saving to one shareholder. We will hope that the directors will be satisfied with the way in which the Company will be managed by our shareholders and by the directors of the Insurance offices, so that this support will be the same to the junks which you have spoken of as to the junks which we have spoken of.

MR. MILLER: There is no question of the support of the vessels—there is no comparison between the two. The directors want to know the names of the consignees, but the directors do not give the assistance they should, but there are foreign buyers and shareholders who should be induced as much as possible to support the Company. This concluded the meeting.

WONG CHOI S. STEAMSHIP "KWONG HOI,"  
This was a claim for \$8,000 by Wong Choi  
and others, owners of the cargo boat No. 326,  
against the steamer Kwong Yee, owned by the

The Hong Steamship Company, for damages incurred in a collision between the boats, *Mr. A. F. Leach, Q.C.* (instructed by *Mr. E. B. Ellis*, of *Mr. V. R. Deacon's office*), appeared for the plaintiffs, and *Mr. J. J. Frauds, Q.C.* (instructed by *Mr. H. L. Deauys*), represented the defendants.

On opening the case *Mr. Leach* said the claim was instituted by *Wong Chooi and others*, owners of a cargo boat or junk, in respect of a collision with the *Kwong Hoi*, for which *Wong Hoi* was responsible. A cargo steamer received in a collision on December 13th, 1906, the evening of the plaintiff's loss, and the vessel was carrying a cargo of sugar, and was proceeding westward to the harbour. When between the *China* and the *Kwong Hoi*, the *Kwong Hoi* was ordered to stop, and the *Sailor's Breeze*, the *Kwong Hoi* was moving towards them. The night was very dark and stormy, and when the *Kwong Hoi* was only half a mile from the *China*, the latter was only half a mile from the lanterns and shunted, but in a few moments the steamer ran into the junk on the starboard bow. The boat quickly settled and sank, and the cargo of sugar and the water and oil on the lower hold of port liquid was visible. The *Kwong Hoi* was then towed away, while others rescued by the crew of the steamer. Twelve, however, were lost.

*Mr. Leach* contended that the collision was due to the carelessness of the *Kwong Hoi*, which was moving at too great a speed and too close to the shore. The defendants in their answer alleged that the junk was on the starboard bow of the *Kwong Hoi*, and that the latter was not on a beam reach, and that it was not too fast, the water line was, was required by the *Kwong Hoi*. The defendants also stated that they were not on the *Kwong Hoi* within about 100 feet, that the steamer was going dead slow, that on perceiving the junk the engines were reversed.

The case was then heard, and had not concluded when the Court adjourned until 9.30 morning.

The practical employment of wave power is now at an advanced stage. The invention of the
